Subject: Multimedia Connect approval letter for the serie Wirexpert Cable Analyzer™ tester

Dear Thomas,

Multimedia Connect has extensively evaluated the measurement efficiency of the serie Wirexpert Cable Analyzer™ unit in the laboratories as well as in field-testing. The test results obtained with this field tester are homogeneous very closely with tests performed thanks to laboratory equipment such as our Cobalt cable analyzer. The serie Wirexpert Cable Analyzer™ testers are approved for Multimedia Connect authorized installers and contractors to submit test results for the warranty program.

Moreover, Multimedia Connect approves the serie Wirexpert Cable Analyzer™ equipped with the Export 7xx software or Firmware 7xx for use in field-testing of Multimedia Connect copper range (from Cat.5e / Class D to Cat. 6A / Class EA) Cabling Systems and beyond.

We look forward to a continued cooperation and future opportunities to evaluate Wirexpert products that can be used to test and certify our cabling installations in the field.

Sincerely Regards,

Rachid Ben Ali
Product Manager
